

## 2009 Scholarship Recipients

SJV-NAPNAP is happy to award scholarships to two CSUF graduate students,- Jocelyn Alsdorf and Pamela Freitas.

**Jocelyn** graduated from CSU, Fresno in 2002 and has been working in Pediatric oncology since February 2003. She has quickly worked her way up the clinical ladder at Children’s Hospital Central California, attaining and maintaining an RN IV classification. This indicates her dedication to ongoing education and leadership potential as she mastered the various requirements to RN IV.

Jocelyn hopes to use her advanced clinical skills in the field of pediatric oncology and is currently developing a “long-term survivor’s clinic with her research interest in managing the late effects of childhood cancer treatment. As a single, hard-working young adult our support for her education was greatly appreciated and she will be a valuable asset to our profession.

**Pamela** has a BA in Sociology and a BS in Nursing and is now excited about her role as an advanced practice PNP. Her sociology experience opened her eyes to opportunities in nursing and she is now very interested in endocrinology and diabetes care for children. She is working at Children’s Hospital Central California on the Hem/Onc/ Nephrology/Endocrinology unit and attending school full-time.

Pamela’s upbeat personality is perfect with children and her enthusiasm and her organizational skills are also huge assets. She has partnered with a fellow student to make sure her classmates meet all the important deadlines and have the most current information to complete their degrees. Pamela is currently planning her wedding and looking forward to many new things in her life.
